

## PRIORITIZATION OF NEED For Services/Supports

_____ Residential	_____ In-Home Support
Consumer Name: _____ Case #: _____	
Service Coordinator: _____ Date Placed on Waiting List: _____	
Service #1 Category/Points: _____	
Service #2 Category/Points: _____	
Service #3 Category/Points: _____	
Additional Information: _____	
Date Scored: _____ URC Representative: _____	

In order to be on the prioritized waiting list for services/supports, the service/support *must be*:

- identified as a need in a person-centered plan;
- specifically related to the person's disability (i.e., not something that would be needed regardless of the person's disability); and
- unavailable through natural support systems or other funding sources.

First, read through the categories, then:

- pick the category that best describes each service need of the individual.
- Only one category can be selected per service. Prioritize this decision based on the service/support (*not* by person).
- Once a category has been selected, only compile the points for the selected category for each service.
- When the category points are tallied, transfer category letter and the total points to the top of this page.
- If Emergency or H & S category is chosen the person-centered plan must reflect what safeguard and/or emergency measures have been put in place to address the concerns.

A service can only be prioritized or listed under one category, however, there can be more than one service in any category.
